

Social Equity and Infrastructure – What Engineers Need to Know

February 6, 2019

CDM Smith, 75 State St, 7th Fl, Boston, MA

7:30 AM Registration/Breakfast | 8 AM – 10:30 AM Program

Infrastructure projects are economic drivers in most communities. These projects can create economic opportunity – a chance to lessen inequities in income and assets that have defined communities’ sociodemographic profiles for decades. Join us to learn about social equity issues in transportation and how the engineering community can help state and local transportation agencies working to improve the positive impact of projects on diverse communities.
