A New Mobility Paradigm – Autonomous Vehicles, Ridesharing, and Electric Vehicles

William F. Lyons, Jr., PE, AICP, Esq., President & CEO, Fort Hill Companies LLC

Three disruptive trends in mobility will have a tremendous impact on how we plan, design, operate, and build our future transportation systems. The confluence of electric vehicles, ride sharing services, and autonomous vehicles will create a new way of delivering transportation to the public. This new paradigm is called Mobility as a Service (MaaS) and it will revolutionize the way we think about transportation.

Join us for the annual fall MALSCCE Board of Directors Dinner Meeting, which also doubles a joint meeting of MALSCCE's Eastern and Central Massachusetts Chapters. Come enjoy great food and networking with your peers as you hear reports on MALSCCE's latest undertakings and a featured presentation on A New Mobility Paradigm.
