Safety Inspection of In-Service Bridges for Professional Engineers

Monday, April 23, 2018 – Friday, April 27, 2018

Hilton Garden Inn Worcester, 35 Major Taylor Boulevard, Worcester, MA
Monday through Friday, 8:00AM – 4:30PM

This five-day course, intended for Professional Engineers (PEs), is based on the "Bridge Inspector's Reference Manual" (BRIM) and provides training on the safety inspection of in-service highway bridges. This adaptation of the 10-day Safety Inspection of In-Service Bridges course (FHWA-NHI 130055) has been streamlined to better suit experienced PEs, while retaining strong emphasis on bridge inspection, documentation, and coding requirements. The course includes one virtual bridge inspection trip; new instruction on critical findings, their identification and response; curriculum on the new AASHTO Element level evaluation; and updated activities that maximize participant engagement throughout the course.

Please note that to take this course, participants must show that they are certified as PEs and have passed one of the three prerequisite courses: FHWA-NHI-130054, Engineering Concepts for Bridge Inspectors; FHWA-NHI-130101, Introduction to Safety Inspection of In-Service Bridges; FHWA-NHI 130101a, Prerequisite Assessment for Safety Inspection of In-Service Bridges. Please forward your prerequisite certificate in the form of a PDF document to bsces@engineers.org before Friday, March 23, 2018.

Registration Deadline: Friday, March 23, 2018
