

# Trends in the Delivery and Financing of Public Infrastructure

*TECET Seminar*

with John Miller, President, Barchan Foundation

**Wednesday, March 29, 2017**

**9:00 AM Registration and Breakfast, 9:15 - 10:30 AM Program**

**@ Aldrich Center at The Engineering Center, One Walnut St, Boston, MA**

Governments across the world are struggling with how to deliver and finance badly needed public infrastructure facilities. Experiments continue for procuring and delivering roads, transportation, water supply, wastewater treatment, schools, hospitals, and other public facilities. Lessons learned from these efforts – both good and bad – are not being properly collected and shared in practical or helpful ways. One of the primary missions of the Barchan Foundation is to address this issue.

Register online at: [http://bit.ly/TECET\\_Trends3-17](http://bit.ly/TECET_Trends3-17) with your assigned login/password or use this form.

Registrant Name(s):		
Firm/Org:

T: 617/227-5551; F: 617/227-6783, Email: [tecet@engineers.org](mailto:tecet@engineers.org)

Use form to register more than one person from your firm/agency. No shows will be charged and cancellations must be received 2 business days prior to the event.

Supported by The Engineering Center Education Trust staff

**Join us on March 29 for a discussion with John Miller – to build a community in which project delivery and finance experience and strategies are collected and shared – with a view toward improving the long term performance of not only individual public projects, but entire collections of infrastructure networks.**

Dr. John B. Miller's professional career has been focused on practical solutions to the business needs of commercial organizations across the construction, manufacturing and defense industry sectors, from start-ups and established small businesses to large commercial organizations. Dr. Miller has developed national and international advice and litigation practices. John is an elected fellow of the American Bar Association, its Section of Public Contract Law, and the American College of Construction Lawyers, in which he has served in leadership positions. Dr. Miller was the GOP candidate for Attorney General of Massachusetts in 2014.
