Lead and Copper Rule Revision Compliance: Challenges, Opportunities, and Resources

Kirsten Ryan, PG
Senior Project Manager, Kleinfelder

Wednesday, March 22, 2023

12:00 PM - 1:00 PM
Zoom Webinar

In December 2021, the U.S. Environmental Protection Agency finalized a major revision to its Lead and Copper Rule (LCR), which hasn't been updated in nearly 30 years. The **Lead and Copper Rule Revision (LCRR)** is meant to provide protection for children and communities from risks related to lead exposure.

Under the LCRR, a community must prepare a lead service line inventory and a replacement plan by October 2024. To help water utilities prepare for the new rule changes, EPA published guidance in August 2022 for preparing and maintaining a lead service line inventory for communities. The presentation will go over how to best prepare an inventory, some possible challenges, and what you can do to be prepared for compliance with the rule changes.

Registration Deadline: Monday, March 20, 2023

\$45 Members, \$55 Non-Members
\$40 Public Sector Members, \$55 Public Sector Non-Members
\$15 Students & Senior Members (65+)

Information/Registration:

Register to attend this meeting and pay by credit card [here](#). To register online for an event at the BSCES member rate you must login using your BSCES assigned username and password. If you do not know your BSCES member login information email bsces@engineers.org or call 617/227-5551. You can also register for this event by mail or email. To do so, download and complete a [BSCES Event Registration Form](#) and follow the submission instructions. Cancellations received after Monday, March 20, 2023 and no-shows will be billed.

This presentation provides 1 Professional Development Hours (PDH)

Supported by the staff of The Engineering Center Education Trust
