

MALSCE Webinar Series

UAV Practices, Procedures and Latest Developments

Thursday, April 30, 2020
12:00 PM - 1:00 PM EDT
Zoom Video Webinar*

This MALSCE Webinar will feature Adam Kersnowski, Co-Founder and COO of Airworks Solutions Inc., which makes artificial intelligence (AI)-powered software for companies in the construction industry. This software autonomously converts aerial datasets into CAD drawings, saving firms weeks or months of time when compared to traditional drafting methods. During this webinar, Adam will discuss AirWorks' proprietary machine learning and aerial mapping technology including the flying procedures utilized to collect data, their data processing software and methods, and the geospatial and pixel accuracies the resultant data. He will also share his views on upcoming trends and tendencies in UAV mapping.

Speaker

Adam Kersnowski, Co-Founder and COO, Airworks Solutions Inc.

Airworks, co-founder and COO, Adam Kersnowski leads the company's development and implementation of strategic plans for UAV operations within the construction industry, in addition to overseeing AirWorks overall business operations. Prior to co-founding AirWorks, Adam ran a successful construction business for more than ten years, constantly finding innovative ways to grow revenue and increase margins. A visionary by nature, he wanted to revolutionize technology in his own company and began implementing the use of UAVs to inspect building facades, roofing components and other hard to access areas. This work eventually led to the development of UAV acquired data for AI in the construction industry and the early beginnings of AirWorks. Adam graduated with a Bachelor of Science degree from the University of Southern Maine.

** Zoom Video Webinars is a widely used webinar platform. You will hear the voice of the speaker and watch a PowerPoint and live software presentation. This technology allows for questions and answers. Webinar login information will be sent to registrants the week of the webinar.*
