

MALSCE Webinar Series

Introduction to Surveying Research for Surveying Technicians

Friday, November 4, 2022

12:00 PM - 2:00 PM

Zoom Video Webinar

This two-hour webinar is intended for surveying technicians who wish to expand their understanding of surveying records research. Basic approaches to research (why and how) will also be explained so that attendees will be prepared to not only perform basic research but be able to critically analyze their research for completeness.

This webinar is the first in a two-part series for survey technicians. Depending upon your level of expertise, these webinars can be taken individually or as a pair. The second program entitled "Basic Boundary Law and its Role in Surveying Research" is being held from 12:00 to 2:00 PM on Friday, November 18. [Click here](#) to view a program description. *These webinars are not intended for practicing land surveyors, nor is it intended to meet continuing education requirements for practicing land surveyors.*

Speaker

A. Richard Vannozi, MS, PLS, University of Maine

Richard has taught surveying across New England since 2003. Currently, he teaches at The University of Maine in the Surveying Engineering Technology program, where he teaches courses across the curriculum, both in the traditional classroom and on-line. Rich is registered as a professional land surveyor in Massachusetts and has been since 1988. He is a former president of MALSCE and, in 1998, was recognized as MALSCE's Surveyor of the Year. He currently serves on the NSPS Education Committee and is the advisor to the NSPS Student Chapter at the University of Maine. Rich maintains a small consulting practice that specializes in complex boundary, title, and zoning matters for select clients including attorneys and other professional land surveyors.

Registration Information
