# Envision™ Symposium: New Release and Current Trends in the Sustainable Infrastructure Project Framework

**Tuesday, January 15, 2019**

**CDM Smith**

**75 State St #701**

**Boston, MA 02109**

**5:30 PM Reception; 6:00 – 7:30 PM Panel Discussion**

Join a panel of local and national experts assembled to discuss the recent release of Envision™ v3, and current industry trends for its application to planning sustainable infrastructure projects. The relevance of the Envision Sustainability Professional (ENV SP) credential will also be covered. Questions may be submitted to the panel in advance by registrants. Food and beverages will be provided during the reception, along with a cash bar. Earn 1.0 Professional Development Hour (1.0 PDH) toward ENVSP credential maintenance.

## Panelists:

Kari Hewitt – Director of Sustainability, VHB

Anthony Kane – Managing Director, Institute for Sustainable Infrastructure (ISI)

John Michalak – Senior Project Manager, Nitsch Engineering

Christina Vitt – Infrastructure Officer, Rhode Island Airport Corporation

Eric Seabury – Manager of Engineering, Rhode Island Airport Corporation

About Envision: Envision is a framework that provides the guidance needed to initiate this systemic change in the planning, design and delivery of sustainable and resilient infrastructure. Envision is a decision-making guide, not a set of prescriptive measures. Envision provides industry-wide sustainability metrics for all types and sizes of infrastructure to help users assess and measure the extent to which their project contributes to conditions of sustainability across the full range of social, economic, and environmental indicators.
