

The Boston Society of Civil Engineers Section/ASCE (BSCES) is dedicated to helping to support and promote the fields of science, technology, engineering and math through STEM education. We are a group of over 100 regular volunteers that mentor students, run activities and talk at schools, give tours, take in job shadows, and many other activities. We are most famous for running two major events:

### New England Regional Future City Competition

Over 30 teams of students from all corners of New England are already working on the challenge for this year. They are asked to create their dream city of the future and explain how it works using logic, scientific basis and sound engineering principles. They create a virtual model of their cities using Sim City software, make a scale model using recyclables, create a seven-minute presentation and answer questions from panels of judges. The judging for this event takes place in late January and through most of February, with the International Finals in April.

### Model Bridge Contest

This contest is in its 30th year and challenges over 45 teams of students, grades 5-12, to build a 3 1/2-foot span bridge of a "surprise" material, with new specifications prepared annually. While the competition may be largely virtual with bridge judging occurring on February 6, we will be sure to create a wonderful experience for every student participant!

## Partner with BSCES to promote STEM education to students. Become a BSCES STEM K-12 Educational Outreach Sponsor!

As a BSCES STEM Program Sponsor, we will work with your organization to select a special award at Future City of your choosing. Representatives from your organization are welcome to judge teams applying for your award during a teleconference with team members or we can assign volunteers to handle the judging. Your organization's name will be in sponsor listings that appear in competition-related press releases, member newsletter articles, and participant tee-shirts. Sponsoring provides your organization with great visibility and name recognition and also serves to help assure that there are young people that will grow to make the world a better place. We are now seeing alumni from this competition returning to us as judges, having grown to be outstanding STEM professionals. The students you meet during these competitions may be your new star employees in less than a decade! The following is a list of BSCES STEM Sponsorship benefits:

### BSCES STEM Program Sponsor – \$1,000

- Organization identified as a sponsor in press releases, member newsletter articles, and related displays.
- Organization recognized as a sponsor and thanked during introductory remarks for each competition.
- Photograph collage containing a copy of your award, organization logo, and winning team will be sent to you (all students have signed media releases).
- Organization name included on the back of tee-shirts that are given to contest participants and mentors.

To enroll as a 2020-2021 BSCES STEM Program Sponsor simply complete and return the enrollment form on the next page with payment by Friday, January 15, 2021. If you have any questions, please contact Rich Keenan at 617/305-4110 or at [rkeenan@engineers.org](mailto:rkeenan@engineers.org).

I would like to become STEM K-12 Educational Outreach Sponsor \$1,000

Firm/Organization Name: \_\_\_\_\_

(As you would like it to appear in sponsorship promotions)

Sponsor Contact: \_\_\_\_\_

Address: \_\_\_\_\_

Telephone: \_\_\_\_\_

Email: \_\_\_\_\_

Fax (617/227-6783) or email ([bsces@engineers.org](mailto:bsces@engineers.org)) this form and credit card information to BSCES by Friday, January 15, 2021.

Please bill my (check one):  MasterCard  Visa  American Express

Card Number: \_\_\_\_\_ Expiration Date: \_\_\_\_\_

Billing Address: \_\_\_\_\_

Cardholder Signature: \_\_\_\_\_

Print Name: \_\_\_\_\_

Or

Make check payable to BSCES. Mail with this form to Boston Society of Civil Engineers Section/ASCE One Walnut Street, Boston, MA 02108-3616.

If you have any questions, contact Rich Keenan at 617/305-4110 or at [rkeenan@engineers.org](mailto:rkeenan@engineers.org)
