Geospatial Management & Reality Capture

Stephen M. Wilkes

Vice President/Chief Innovation Officer, Feldman Geospatial

Wednesday, February 22, 2023

12:00 PM – 1:00 PM

Zoom Webinar

Gaining the most value from real world data can be a challenge for design teams. How best to manage the ‘single source of truth’ when information can come from a wide range of sources and context?

This presentation will discuss thoughtful integration of laser scanning, UAV data, subsurface utility engineering, and conventional land survey to provide design teams with the fullest possible picture and an understanding of the confidence and approach to the information they provide.

Registration Deadline: Friday, February 17, 2023

Registration Fees:

\$45 Members, \$55 Non-Members

\$40 Public Sector Members, \$45 Public Sector Non-Members

\$15 Students & Senior Members (65+)

Information/Registration:

Register to attend this meeting and pay by credit card online [here](#). To register online for an event at the BSCES member rate you must login using your BSCES assigned username and password. If you do not know your BSCES member login information call 617/227-5551. You can also register for this event by mail or email. To do so, download and complete a [BSCES Event Registration Form](#) and follow the submission instructions. Cancellations received after Friday, February 17, 2023 and no-shows will be billed.

This presentation provides 1 Professional Development Hours (PDH)

Supported by the staff of The Engineering Center Education Trust
