

The Boston Society of Civil Engineers Section/ASCE (BSCES) is dedicated to helping to support and promote the fields of science, technology, engineering, and math through STEM education. Led by our Public Awareness & Outreach Committee, BSCES has a group of over 100 regular volunteers that mentor students, run student activities, talk at schools, conduct tours, take in job shadows, and perform many other activities. We are most famous for running two major events:

New England Regional Future City Competition

Over 60 teams of students from all corners of New England are already working on the challenge for this year. They are asked to create their dream city of the future and explain how it works using logic, scientific basis, and sound engineering principles. They create a scale model using recyclables, write a 1,500 word essay, create a seven-minute presentation and answer questions from panels of judges. There are two semifinals this year: western New England on January 18, 2025, and eastern New England on January 25, 2025. This year, all cities must be FLOATING CITIES!

Model Bridge Contest

This contest is in its 34th year and challenges close to 100 teams of students, grades 5-12, to build a 3 1/2-foot span bridge of a “surprise” material, with new specifications prepared annually. This year, our bridges are being made from wood rulers, popsicle sticks, and white school glue! The contest will be an in-person event in February at Wentworth Institute of Technology.

Partner with BSCES to promote STEM education to K-12 students. Become a BSCES STEM Outreach Program Sponsor!

As a BSCES STEM Outreach Program Sponsor, we will work with your organization to select a special Future City award. Representatives from your organization are welcome to judge teams applying for your award during the competition. Your organization’s name will be in sponsor listings that appear in competition-related press releases, BSCES member newsletter articles, and participant tee-shirts. Sponsoring provides your organization with great visibility and name recognition and serves to help ensure that there are young people that will grow to make the world a better place. We are now seeing alumni from these competitions returning to us as judges, having grown to be outstanding STEM professionals. The students you meet during these competitions may be your new star employees in less than a decade! The following is a list of BSCES STEM Outreach Program Sponsorship benefits:

BSCES STEM Outreach Program Sponsor – \$1,000

- Organization identified as a sponsor in press releases, BSCES member newsletter articles, and related displays.
- Organization recognized as a sponsor and thanked during introductory remarks for each competition.
- Organization listed as sponsor on www.engineeryourfuture.org, the external K-12 Outreach website run by BSCES.
- Organization’s name included on the back of tee-shirts that are given to contest participants and mentors.

You can [enroll online](#) to become a 2024-2025 BSCES STEM Outreach Program Sponsor or simply complete and return the enrollment form on the next page with payment by Friday, December 20, 2024.

If you have any questions, please contact Rich Keenan at 617/305-4110 or at rkeenan@engineers.org.

I would like to become 2024-2025 BSCES STEM Outreach Program Sponsor **\$1,000**

Firm/Organization Name: _____
(As you would like it to appear in sponsorship promotions including the back of competition participant tee-shirts)

Sponsor Contact: _____

Address: _____

Telephone: _____

Email: _____

Fax (617/227-6783) or email (bsces@engineers.org) this form and credit card information to BSCES by **Friday, December 20, 2024.**

Please bill my (check one): MasterCard Visa American Express

Cardholder Name: _____

Card Number: _____

Expiration Date: _____ Security Code: _____

Billing Address: _____

Cardholder Signature: _____

Or

Make your check payable to BSCES and mail with this form to Boston Society of Civil Engineers Section/ASCE, One Walnut Street, Boston, MA 02108-3616.

If you have any questions, contact Rich Keenan at 617/305-4110 or at rkeenan@engineers.org.

Payment Due at Time of Commitment
