The Digital Asset Challenge: Using Technology to Improve Organization & Efficiency

One of the most challenging aspects of marketing and business development in the AEC industry is the organization, management, and accessibility of digital assets, including project photographs, headshots, renderings, and other imagery. Increasingly, AEC firms are turning to technology to solve this challenge.

In this article, **Rich Friedman** explores how digital asset management (DAM) technology can increase efficiency, enhance proposal preparation, and reduce frustration for your marketing and business development team.
