

# ANNUAL GIVING PROGRAM

The Engineering Center Education Trust is hard at work fulfilling our mission to enhance the impact of the Massachusetts engineering and land surveying community. We are able to leverage our collective energy to further benefit our professions and the community through the powerful affiliation of ACEC/MA, BSCES, MALSCS and our affiliate associations, under the roof of this historic building at One Walnut Street.

We have established this wonderful Center through the generosity of people like you. Our goals are to:

- **Increase funding for educational endeavors and scholarships**
- **Improve public outreach and community service**
- **Promote excellence in the profession**
- **Continue to increase the value of this facility for our sponsors and others by investing in the quality of the premises**

This year we have a specific Building for the Future Capital Campaign created to offset the \$439,000 loan we took out to replace the mansard roof, repaint the windows, upgrade our conference room, and update the bathrooms. You may designate all or part of your contribution to this campaign.

Thank you for your thoughtfulness in making a tax-deductible donation to The Engineering Center Education Trust. We are grateful for your support.
