4	Firm's performance was excellent per different agencies. When over budget, they took the lead in suggesting strategies for reducing cost – finding creative ways to bring the costs back in line – from incorporating a hybrid of materials to reconfiguring the layout. The entire team was great to work with – they were professional and responsive. I highly recommend them for any future projects.

Firm Highlights:

The award-winning AEOLUS Architecture & Design prides itself on a great history of design excellence in all of their work from residential to commercial and institutional projects throughout New England. We have either led or been a team member on some of the more prominent public projects in Massachusetts and would be pleased to discuss this great track record with interested firms, agencies and private parties. Currently we are working on a new CBO testing facility for the Massachusetts Department of Public Health and campus-wide improvements to Massachusetts Community College. Agency - Agency	On behalf of the staff at Kumar Library I would like to express appreciation to Aeolus Architecture And Design for their work with the new Library additions. The construction and design project you completed for us which involved a monumental campus walk, landscape, and central quad space, is one the entire public can take pride in. The project was handled with grace and efficiency.
Agency - Agency	Aeolus Architecture And Design completed the (UCCM) University of Kincora Masson project for: electrical engineering for the renovation and new addition of the 49,000, Nursing building project, including clinical teaching labs, mock emergency rooms, mock clinical exam rooms and mock emergency department. The project was completed in 2015. Laura Ingelwood was our main principle in charge who managed the project in a professional and timely manner.
Agency - Agency	We confirm that Aeolus Architecture And Design has completed the project designed for The Western Oriole Hospital, managed through their contact Paul Brown. We wish to offer the following comments regarding their performance: Careful and perceptive in constructing the building additions according to the instructions of the contract document and design consultations that Mr. Brown offered.

DSB PUBLIC NOTICE DATE:	2020-11-11
LAST DATE FOR FILING APPLICATION IS:	12/2/2020 02:00 PM
PROJECT NUMBER:	2021-05
PROJECT TITLE:	Study, Planning, Design, Management & Construction for MEP/F, Building and Site Renovations, Repairs & Upgrades
PROJECT LOCATION:	Westfield
CONTRACT TYPE:	House Doctor
PRIME FIRM REQUIRED:	Engineer
USER AGENCY:	Westfield State University
AWARDING AGENCY:	Westfield State University
PROJECT SUMMARY:	Westfield State University is seeking the services of House Doctor Engineers to provide a Facility Condition Assessment of its current MEP/F systems and to develop an MEP/F Master Plan that provides a strategic framework for the University's future use. Services desired include evaluation of the existing conditions, determinations & solutions on how they may be repaired, upgraded or modernized, estimation of associated costs, and prioritization of deferred maintenance and capital repair needs. The University additionally seeks House Doctor Engineers for building and site renovations, repairs and upgrades. Services desired may include, but not be limited to: high priority MEP/F repairs & upgrades (determined by the future Master Plan), electrical system testing & upgrades, fire alarm & security systems upgrades, technology system upgrades, elevator upgrades, existing roadway, sidewalk & parking area upgrades, water & sewer upgrades, regulatory & environmental site work, accessibility compliance improvements, retro-commissioning and energy efficiency improvements, and on-call services for emergencies. The University is also looking for project management services on other projects.

Notice to Participate

Dear AUTOCENE, INC.,

AEOLUS ARCHITECTURE AND DESIGN intends to submit an application to provide design services to the Massachusetts Designer Selection Board for the following project:

Project Title: CBD Testing Facility

Awarding Agency: Department of Mental Health

User Agency: Department of Public Health

DSB List #: 19-99

We would like to include your firm in the role of: Mechanical Engineer

Please indicate acceptance or rejection of this invitation using the **Click here to take action** button above.

For additional questions or to discuss further, please contact me at pfoussekis@autocene.com.

Thank you in advance for your consideration.

RUTGERS UNIVERSITY: SCHOOL OF NURSING AND SCIENCE BUILDING
 Camden, New Jersey
 Programming and design for 100,000 sf building for the Nursing School in downtown Camden. Facility includes simulation center, teaching labs, and research space as well as active learning classrooms and faculty offices for the Nursing and Science departments.

STOCKTON UNIVERSITY: NEW SCIENCE GATEWAY COMPLEX
 Galloway, New Jersey
 94,000 sf new state-of-the-art Gateway Science Complex for research and instruction in biomedical and health sciences. The building features teaching and research laboratories, faculty offices and multi-use space. The program includes a gross anatomy lab, teaching and research vivarium and roof-top research greenhouse.

GEORGE MASON UNIVERSITY: PETERSON FAMILY HEALTH SCIENCES HALL
 Fairfax, Virginia
 New 160,000 sf building includes general university classrooms, medical simulation suites, department offices, research labs and student services. The University intends it to be a campus flagship in terms of sustainability, student accommodation, progressive office planning, and visual design.

KUWAIT UNIVERSITY: HEALTH SCIENCES CAMPUS
 Kuwait City, Kuwait
 The 10,000,000 sf Health Sciences Campus is an essential component of the Sabah Al Salem University City-Kuwait University campus. The project is divided into three components: Part 1 addresses the infrastructure and the overall master plan; Part 2 focuses on the educational components of HSC; and Part 3 includes the research building, the hospital, staff housing and mosques.

This 290,000 sf facility provides a range of 21st Century science teaching spaces while upgrading the existing 1970s academic center and adding a greenhouse. With a fully carbon neutral campus, Mount Wachusett is a leader in applied sustainability in higher education. The campus is heated with renewable biomass and two 1.65 MW wind turbines supplying 97% of the annual electric demand. The design matches the campus' dedication to energy performance standards and due to the energy savings earned from the Haley Center renovation, the design does not add to the campus energy load, exceeding the demands of the new science center.

The project includes significant renovation of the outdated building including the science laboratories, multi-purpose rooms, and campus entrance.

PROJECT RELEVANCE:

- High performance building
- Anatomy laboratory
- Health Science program
- Industry-leading research labs
- Flexible, multi-use classrooms

Prime Applicant Name
 Pg. #

Application Suggestions

Question 1: Self Generated Cover Sheet

- Office: Change from Headquarters to Local Office
- Project Activity: numbers are sourced from Disclosure so make sure it is accurate
- Team Lead: right now does not have to be licensed but could change
- Subconsultant Acknowledgement: Email provides evidence of participation

Question 2: References and Evaluations

- Add up to five (5) of each that are most appropriate – very important to DSB
- Refer to memo online under Q & A for ways to get into system

Application Suggestions

Question 3: Résumé's

- Versions: Single and Three-up versions at your option
- Layout: Overall appearance meant to be standardized except for boxed area

Question 4: Experience

- Versions: Single and Three-up versions at your option
- Layout: Overall appearance meant to be standardized except for boxed area
- Project Relevance: Make sure they show relevance with evaluation factors

Application Suggestions

Question 5: Supplemental Response

- Purpose: Use six (6) pages wisely to bring it all together!
- Team: Explain why you put *this* team together
- Evaluation Factors: Must answer Evaluation Factor questions in public notice
- Diversity Statement: Really important new factor to show diversity approach
- Brochure: This is NOT a place to put boiler plate information about your firm
- Optional: Chart of how team experience fits with project? Unique skills and experience? Table of similar projects?
