**Massachusetts Designer Selection Board**  
*Designer Selection Network*

This system is used by the Designer Selection Board and DCAMM to enter public notices of new projects and to provide a streamlined system for interested firms from the design community to apply to provide design services. Design firms and consultants can register to become part of a statewide designer database, review and apply for new project listings, search for other firms or applications, and check their firm's public record for accuracy. Massachusetts state agencies and municipalities can use this system to search for designers and consultants for their projects, and to enter statutorily required evaluations and references.
