Company Overview

Founded in 2009, Pamela Perini Consulting (PPC) is a highly credentialed and experienced Security Consulting Firm located in Waltham, MA. Pamela Perini Consulting works mainly on Public Construction projects in the Commonwealth of Massachusetts and in Rhode Island.

Pamela Perini began her career in Security with Security Integration firms. She worked with large national firms as well as smaller regional Security Integration firms. Her positions and responsibilities were mainly project management focused and sales. This security integration experience allowed her to bring a depth and breadth of knowledge regarding Electronic Security Systems integration to the consulting side of the business. Platform and manufacture knowledge, pricing model knowledge, distribution knowledge, integration knowledge, critical infrastructure knowledge and integration knowledge. She initially began part-time consulting with a former client from a former

security integration company.

PPC is **WBE certified** in Massachusetts and Rhode Island, the City of Boston, and WBE certified with Mass DOT.

What sets Pamela Perini, PSP apart, is that her experience in security began with working on the Security Integration side of the business. Her experiences with multi-national security integration firms and smaller super-regional security integration firms gives her the knowledge to assist in change order mitigation. She worked on and executed some of the largest most complex projects in the region ranging from airports and transportation, to multi-campus higher ed and corrections. She has executed enterprise-wide and single-site systems for a number of high profile and confidential clients.

Recent Speaking Engagements/Presentations

- Created PowerPoint and Presented to MAFMA (Massachusetts Facility Management Association);
“Security System Purchases and Maintenance Contracts Best Practices”

*** The Physical Security Professional (PSP) ASIS credential is subject to The Department of Homeland Security’s Safety Act. The SAFETY Act Designation gives ASIS board-certified professionals and their customers immediate protection from lawsuits involving ASIS certification and the ASIS certification process that arise out of an act of terrorism. Not only does it limit the types of liability claims that can be brought against a certificant, but it also entitles the certificant to immediate dismissal of those specific types of claims.*
