

# The TECET Linowes Leadership Lecture

## The Work-Life Blend: Achieving Peak Performance through Personal Fulfillment

Consider this: Is your team genuinely motivated and satisfied? Are they operating at peak performance, positively impacting the firm's corporate culture? You already know these questions are essential to ensuring the overall success of your firm.

However, the answers to these questions aren't solely confined to the professional realm. The personal well-being of your employees plays a significant role in their professional output. Their ability to excel at their roles is fundamentally tied to their satisfaction in their personal lives. How can you achieve this?

In this special Leadership Lecture workshop, Karen Dillon provides ways to help you understand how the choices we each make can play out over the course of our life and strive to enhance personal satisfaction to achieve work-life blend. When we bring this new thinking into our life and workplace, both the individual and the firm benefit.

Karen Dillon, co-author,  
*How Will You Measure Your Life?*

Our esteemed presenter is Karen Dillon, a former editor of Harvard Business Review and 3x co-author with Clayton Christensen, including the New York Times' best-seller *How Will You Measure Your Life?* She is also the co-author of *The Microstress Effect: How Little Things Pile Up and Create Big Problems -- and What to Do About It*. Ms. Dillon has been faculty at Intermountain Healthcare Leadership Institute and she was named by Ashoka as one of the world's most inspiring women.

The TECET Linowes Leadership Lecture brings top business thinking and strategy to our engineering and land surveying community, drawing upon experts in other fields to boost design firm success.

Join us for a distinctive, practical workshop as we explore how to grow ourselves so we can better grow our professionalism and our firms!
